DERL UPDATES

- 1) The Library's entire collection of computers has been "cleaned-up." In addition, the large format color scanner/printer has been upgraded to its top efficiency, and **E&B Natural Resources** (Bakersfield) has agreed to purchase a new computer and monitor to operate the Neuralog scanning/printing operation.
- 2) **Lou Bortz** will once again provide funds for DERL's RMAG "Outcrop" advertisement.
- 3) Our website is constantly expanding, so please check it out.
- 4) Unfortunately, the Library regularly receives calls from family members concerning the loss of a loved one, who happened to be a prominent geologist. Fortunately for the Library, and the entire Oil Patch, the family members want DERL to take possession of the geologist's incredible data. This was certainly the case this past year when valuable Colorado and Kansas data were collected from three exceptional geologists who passed:

Gary Sandlin of Sandlin Oil Corporation

Donald Hembre of Lewis and Clark Exploration Corporation, and

Jerry Hodgden of Hodgden Oil Company

To these fine families ... THANK YOU!

WELCOME NEW MEMBERS

The Library **greatly appreciates all its members**, and we would like to welcome:

- 1) Arete Energy, LLC
- 2) Boreas Energy Resources
- 3) BP North America
- 4) Coulee Investments
- 5) Halliburton Energy Services
- 6) Ivy Energy

Please keep in mind that the Library will be closed on:

Good Friday, March 30th and Memorial Day, May 28th
